

First Cooking Assignment

This first cooking assignment is fairly basic. I just want you in your kitchen at home preparing *something*. It's pretty wide open, but there are a few requirements:

- You must use the stove and/or the oven/grill
- Your dish must include **at least 5** ingredients (this can include seasonings as long as you're preparing something with the stove/oven/grill)
- You cannot use anything pre-packaged or already prepared (outside of pasta...you don't need to make fresh pasta).
- You must have an adult in your family taste what you made and sign off that you prepared it yourself (with *limited* help...this is your first cooking assignment, so I'm okay with mom/dad giving you a bit of hand ☺).

When you have prepared your dish, **take a picture with it and attach the recipe and picture to the form below**. This is due on the date assigned on the website and is worth 25 points.

Name _____

Per. _____

Dish prepared _____
